

Investment objective

To seek a combination of long-term capital appreciation and income, but with a focus on growth, with a medium risk investment profile.

Benchmark

The Fund is benchmarked against the MSCI PIMFA Growth Index (Total Return) and will take active positions relative to this index on both asset allocation and stock selection. The Fund's broad asset allocation (split by equities, fixed income and alternatives) will typically be restricted to a range, relative to the benchmark, set by the CSI Investment Committee.

On 1 March 2017 the WMA (now PIMFA) range of Private Investor comparators replaced FTSE International with indices provided by MSCI and IHS Markit.

Investment policy

In order to achieve its objective, the Fund will invest principally in a diversified portfolio of different asset classes such as equities, equity linked securities (including warrants and convertible securities), fixed and floating rate debt securities, index linked bonds, cash and cash equivalents. Equities will be the dominant asset class.

The equity part of the Fund's portfolio will contain primarily securities from the leading UK companies (FTSE 350) or their equivalents from overseas markets. The equity part of the portfolio may also consist of, but to a proportionately lesser extent, the securities of smaller companies. The bond part of the Fund's portfolio will contain mainly bonds such as sovereign debt or securities guaranteed by governments and corporate debt with the focus being on medium to high credit quality. The bond part of the portfolio may also consist of, but to a proportionately lesser extent, lower quality bonds.
