

Key Investor Information Document

This document provides you with the key investor information document about this fund. It is not a marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

COLEMAN STREET INVESTMENTS – INCOME & GROWTH PORTFOLIO

A Sub-Fund of Coleman Street Investments (the “Fund”)

Class A accumulation (the “Share Class”) (ISIN: LU0904707105)

Class A distribution (the “Share Class”) (ISIN: LU0904707444)

This Fund is managed by CADELUX S.A., part of Delen group

Objectives and investment policy

- * The Sub-Fund aims to provide income and capital growth.
- * The Sub-Fund invests in all types of securities, including shares of companies, debt instruments of all kinds, money market instruments and cash.
- * The Fund may use financial instruments (“derivatives”) whose value depends on the future prices of other assets. Derivatives are usually used to hedge risk and/or to manage the Sub-Fund more efficiently.
- * On demand, you may buy and sell your shares in the Sub-Fund on each business day in Luxembourg (as defined in the prospectus of the Fund).
- * The Fund is actively managed and is not constrained by any benchmark.
- * Share class A accumulation will not distribute any dividend. Share class A distribution aims to distribute a dividend.

Risk and reward profile

- * The historical data used to calculate the synthetic indicator are not a reliable indicator of the future risk and reward profile of the Sub-Fund.
- * The risk category shown is not a target or a guarantee and may change over time.
- * The lowest number on the scale does not mean that a fund is risk free.
- * The Sub-Fund is likely to invest in shares of companies directly or through other funds, that is why this Sub-Fund is in this category.
- * The risk and reward profile shown is not guaranteed to remain the same and may shift over time.
- * The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- * Operational Risk: the Sub-Fund is subject to the risk of material losses resulting from human error or system failures or incorrect valuation of the underlying securities.
- * Debt instruments are exposed to credit risk which is the ability of the borrower to repay the interest and capital on the redemption date.
- * Interest rate risk : a rise in interest rates generally causes bond prices to fall.
- * Liquidity risk : in difficult market conditions, the Sub-Fund may not be able to sell a security for full value or at all. This could affect performance and could cause the Sub-Fund to defer or suspend redemptions of its shares.

For full details of the fund's risks, please see appendix I in the prospectus of the Fund.
